a 45 year old
aeromotor
windmill,
recycled from a
local ranch,
was offered by
Hill Country
Well Service

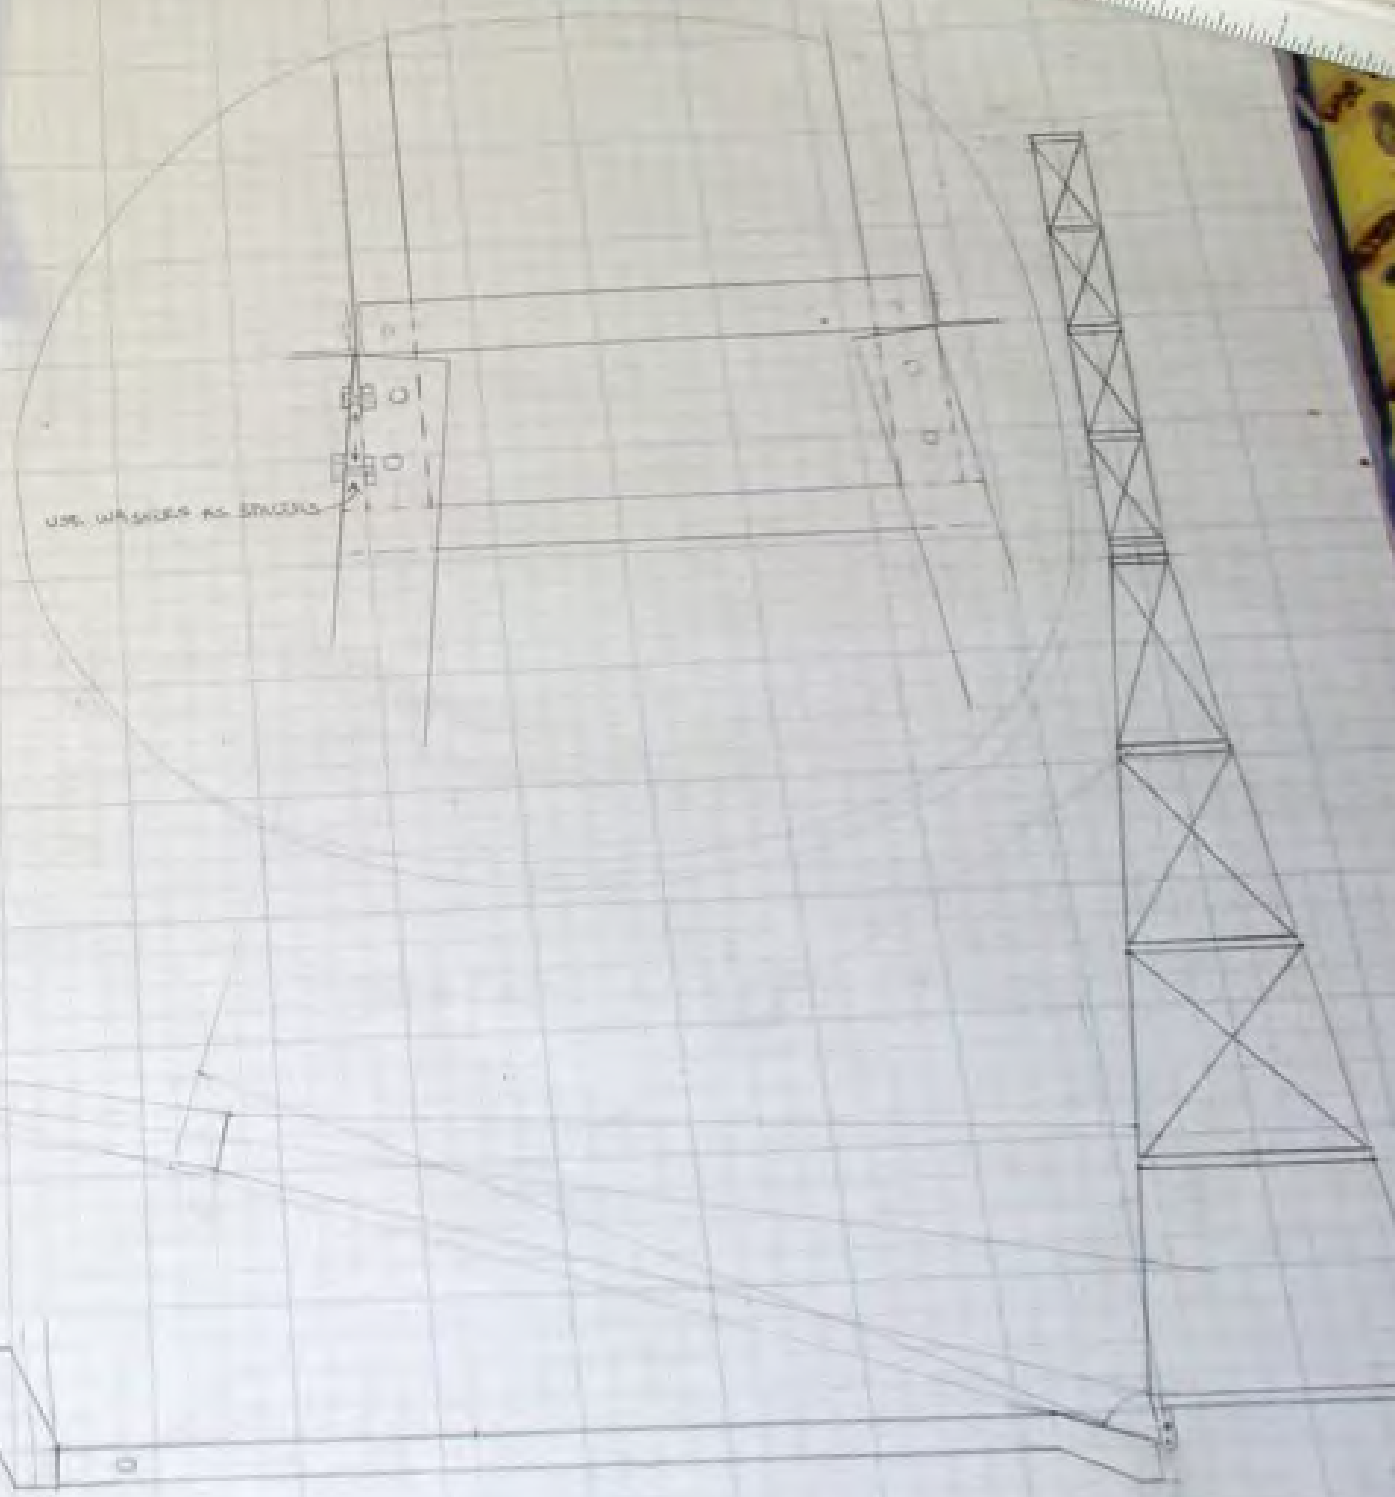

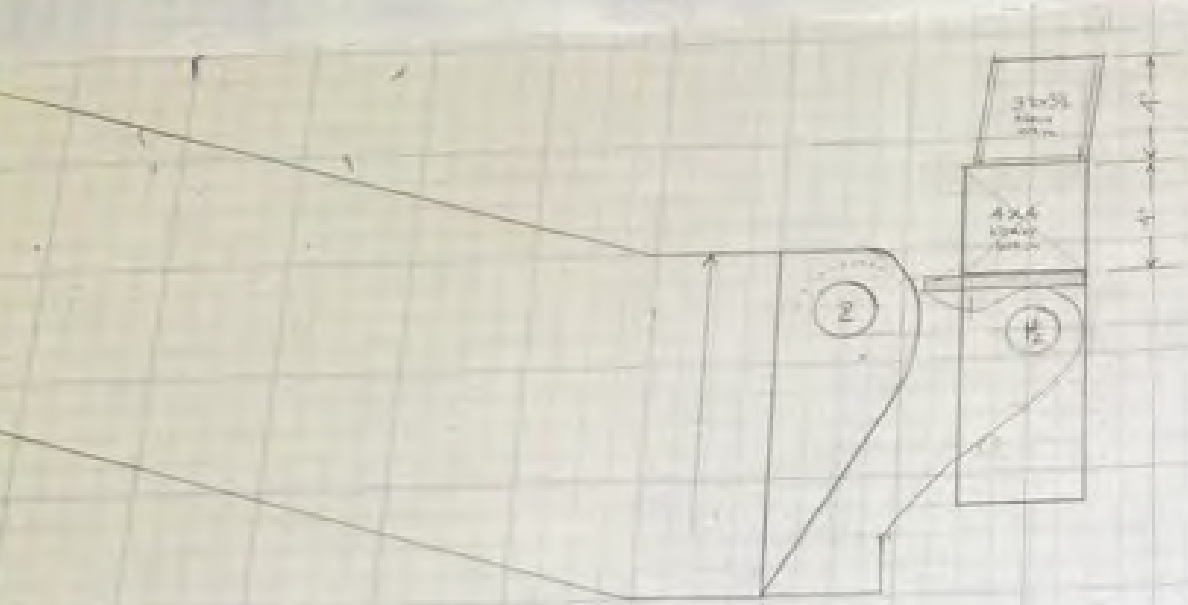

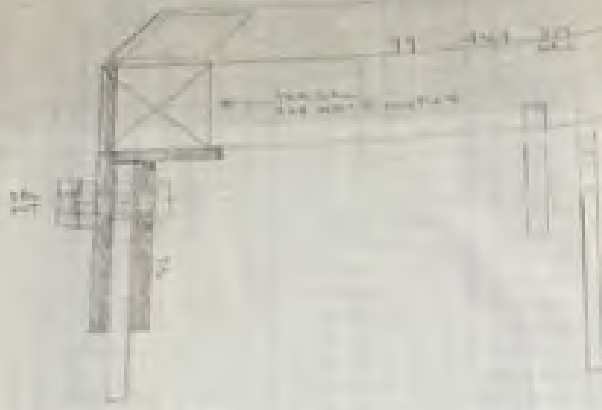

a local “home”
building crew

and the
calculations
began

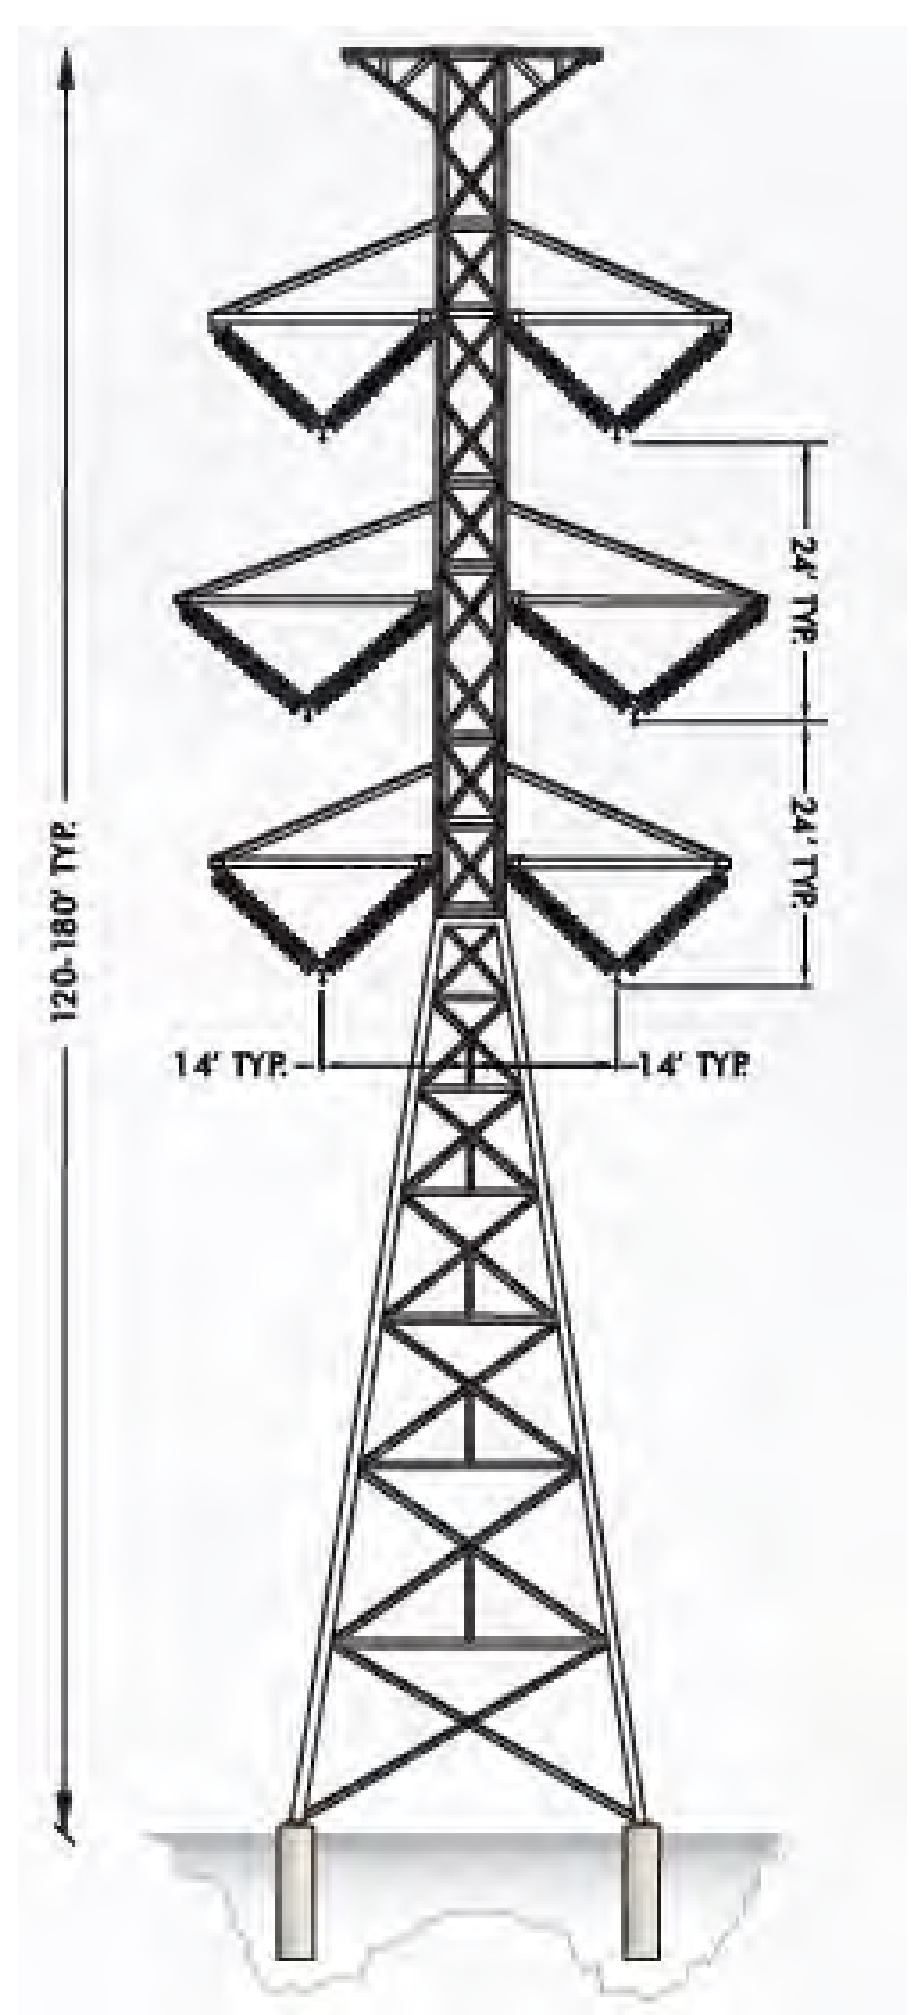

2 OUTSIDE LEGS FROM BOT OF TRAVEL 4x4"
NEED TO REACH 24 1/2"
ON A LEVEL SURFACE
MAKE ADJUST ± 6"

FLOOR

...got tools?

“home” crew keepin’ on

BigTex

raising her up
that first time
was perty
intense, dicey...

would it really work
??????????

*the perfect
“shame”
totem pole*

*seems like such a shame
that people would treat
the hill country this way*

about 450 man/
woman hours
into it,

you can imagine
the looks on
our faces!

and the joy to
remove those
nasty ol'
welding gloves

many important
people have
viewed the CVA
mobile lattice
tower

won't you
please join us?

stand up,
be counted

we do this
to fulfill
our obligation
to ourselves,
our family,
our nation,
the natural world
and the creator

its a pleasure to work for
